## University Prepares for NUW

National Universities Week is approaching and plans for the celebrations are taking shape across the country. At this University special lectures will begin and end the celebrations. On Monday, 3 October, Roald Hoffmann, 1981 Nobel Laureate in Chemistry, will present the 1983 Edward Herbert Boomer Memorial Lecture. Sponsored by the Department of Chemistry, the public lecture ("One Culture," a response to C.P. Snow's perceived rift between technologists and humanists) will be held in SUB Theatre at 8 p.m. At the close of the "week,"

Judge Raynell Andreychuk, former Chancellor of the University of Regina, will be the special guest of the University Senate and the Association of the Academic Staff of the University of Alberta. She will present a public lecture on Tuesday, 11 October, and will be guest of honor at a public reception.

Special lectures are only one

aspect of the celebrations, however. Tours of campus will be led by a number of University Senators, who will also speak to private groups and schools in their communities. One of the special NUW tours open to the community-at-large will be led by Myer Horowitz, as a follow-up to the very successful President's Walk, held for the first time last spring. Scheduled for 3 October, the walk promises fun and exercise and good company for all.

Students will be very much a part of NUW celebrations. The Students' Union has scheduled its annual MLAs Day for Tuesday, 4 October, in Lister Hall. An informal get-together with local MLAs and members of the University Board of Governors, the evening will give students a chance to share with their invited guests some important issues and concerns. A less serious student event will be an "earthball challenge" to be issued by the Students' Union to the University

Administration. In addition, a blood donor clinic has been organized by Agriculture and Forestry students. It will run throughout National Universities Week.

A highlight of the week will be the *grande finale* on Saturday, 8 October, when a special auction, flea market and fair will be held in the Physical Education and Recreation Centre. For more information on this event, see the accompanying article. □

## Auction and Fair to Highlight NUW Activities

In a city which clearly enjoys a good garage sale, Saturday, 8 October, promises to be a day well spent. For on that day, the University will throw open the doors of the Physical Education and Recreation Centre for a giant auction, flea market and fair. The reason? The final day of festivities in the weeklong National

Universities Week. The goal? To welcome the public to the campus and to raise money for a NUW Scholarship.

The auction, arranged by Bonnie O'Dwyer and her colleagues in the Materials Management Department, will make available a wide variety of surplus University equipment and some very valuable china, crystal, and silverware. Other items to be auctioned off will include a luxury weekend for two in Lister Hall, an Art Burgess special fitness program, unique ties from the private collection of L.C. Leitch, a color family portrait (pets allowed) courtesy of Photographic Services, a pair of sandals belonging to J.G. Kaplan, dinner for four at the Faculty Club, and some rare memorabilia from President Horowitz.

The flea market will be organized by "Mr. Merchandising," Jim Malone, Manager of

the University Bookstore. He will coordinate activities for any department, student club or other University-related group wishing to set up shop during the Saturday festivities. Fifty percent of all money raised in the flea market must be turned over to a NUW Scholarship Fund, as must a "negotiable" portion of the "legitimate" auction proceeds (all money raised in the "fun" portion of the auction will be applied directly to the scholarship).

The third part of the day's offerings will be displays about the University. There will be room for faculties and departments to "strut their stuff."

Housing and Food Services has promised free coffee for all; Bookstore staff will give away hundreds of balloons; and rumor has it that the Jazz Band is tuning its instruments. Whether you want to buy, sell, or just browse, be sure to keep 8 October avail-

## Consumer Resource Centre Open House

University faculty are invited to an Open House to be held at the Consumer Resource Centre on Thursday, 29 September, from 1 to 4 p.m. The Centre, operated by Alberta Consumer and Corporate Affairs, contains books, audio-visual materials, periodicals, and films pertaining to consumer education. During the Open House, consumer education consultants will be on

hand to discuss ways of integrating consumer education into various areas of study including education, law, business, and the helping professions.

The Consumer Resource Centre is located on the main floor of the Garneau Professional Centre, 11044 82 Avenue. More information may be obtained by contacting the Centre at 427-5212. □

able. You just might end up the proud owner of George Baldwin's favorite golfing hat.

Those with "legitimate" items to be auctioned off are asked to contact Bonnie O'Dwyer or Roslyn Hanchard, Materials Management Department, 432-5393; □

would-be flea marketers should contact Jim Malone, University Bookstore, 432-4215; and those wishing to donate to the "off-beat" portion of the auction or set up in the academic display area are asked to contact Liz Clarke, Office of Community Relations, 432-2325. □

The ritual that is registration took on a new look last week as the versatile Universiade Pavilion made its debut as Registration Centre.

## HUB Administration Changed

Several changes have taken place recently in the administration of HUB Mall, according to infor-

mation received from Gail Brown, Director of Housing and Food Services. Effective from 1 September, Jim Malone, Manager of the University's Bookstore, became responsible for administration of the commercial and operational aspects of the Mall. Management of the student residences remains with Housing and Food Services.

Personnel changes have also occurred. Ruth Fraser left her position as Mall Manager on 31 July to be replaced by Eva Murray, formerly Administrative Assistant to the Director of Housing and Food Services. Eva Murray will remain Acting Manager of HUB Mall until 23 September, at which time she will move to Nigeria to begin a new career in international development. The appointment of a new Mall Manager, reporting through Mr. Malone to the Vice-President (Facilities and Services), will be announced shortly. □

## Alain Robbe-Grillet's Visit Confirmed

From 26 September to 22 October, Alain Robbe-Grillet will be at The University of Alberta as a Distinguished Visitor under the Endowment Fund for the Future program. In connection with his visit a festival of his films will be held and he will give several public lectures and smaller seminars concerning film and literature. Details of his schedule will appear in posters and in "Coming Events" in *Folio*.

His visit is sponsored by the Departments of Romance Languages and Comparative Literature, and by Faculté Saint-Jean and the Film Studies Committee.

Alain Robbe-Grillet is regarded today as the novelist who has had the greatest impact, both in his native France and abroad, on contemporary fictional forms. Whether one agrees or disagrees with his prescriptive views for a "new novel" or, as some have preferred to call it, an "anti-novel," it is impossible to discuss the contemporary novel without making some reference to his rejection of traditional models in favor of a literature which, avoiding all moral judgments, states that "the world is neither significant nor absurd, it simply *is*." Our concept of the world around us, he argues, "is now only fragmentary, temporary, contradictory even, and always disputable. How can a work of art presume to illustrate a preordained concept, whatever it might be?" A prolific writer, this is a position he demonstrates in more than twenty novels, several works for the cinema, of which "Last year at Marienbad" is probably the best known, and more recently in works closely linked to the fine arts—the lithographs of Robert Rauschenberg or the photographs of David Hamilton and Irina Ionesco.

Few French novelists have enjoyed the international following of Robbe-Grillet, for he is seen as the one writer whose work

epitomizes the new artistic concepts such as those displayed in the novels of the Americans John Barth and Thomas Pynchon, whom it is said he influenced, in the works of the Italian Italo Calvino, or in the works of the celebrated Argentinian novelist Julio Cortázar.

Born in Brest, Brittany, in 1922, Robbe-Grillet first trained as an agronomist, a profession he pursued for several years, and for which he never totally lost the interest, though he was already at work on a first novel, *Un Régicide*, which remained unpublished until 1978. For a time he was an overseer on a Martinique banana plantation, but a tropical illness forced his return to France in 1953, at which time he opted for a full-time career as a novelist. That same year, the publication of his novel *Les Gommes* by the respected Editions de Minuit launched his career and marked the beginnings of a fruitful association with his editor, Jérôme Lindon, who, in 1955, offered him the position of literary editor. Between 1953 and 1956, having published a series of theoretical articles in the *Nouvelle Revue Française* and in *Critique*, later collected in *For a New Novel* (1966), he quickly came to be seen as the chief spokesman for a group of writers, Nathalie Sarraute, Michel Butor, Samuel Beckett, Marguerite Duras, and several others who were developing the new forms of the novel. Though he always denied this pre-eminence, he was clearly the most active and vocal member of this group, often becoming the butt of incomprehensible critics. In spite of the lack of understanding, his second novel, *Le Voyeur* (1955), earned him the "prix des Critiques," a choice which signaled the beginning of a debate, often hostile, between the *nouveau roman* practitioners and the conservative critics, which was to last well into the sixties. During

the period between 1955 to 1960, he wrote two of his most controversial works, *La Jalousie* (1957) and *Dans le Labyrinthe* (1959), and published in *l'Express* a series of strongly worded articles which not only echoed Sartre's strictures against the commercial exploitation of literature, but took on the master himself by denying

the concept of *littérature engagée*. These were decisive years for Robbe-Grillet which helped establish him as a central figure in French letters. Although Robbe-Grillet's articles and creative works had attracted scholarly attention in the periodical press, two major book-length studies crowned his work: in 1963 the American scholar

Bruce Morissette published in France his study of the novels (later published by Princeton University Press), and, in 1964, Olga Bernal published her seminal study with the prestigious Gallimard Editions. At about the same time, Robbe-Grillet was also brought to the attention of a wider public through his screenplays and collabora-

tion with Alain Resnais. Today, his works are firmly established and have been canonized with the major achievements of this century. Robbe-Grillet continues to publish at the rate of at least one major work each year, this in spite of numerous requests from all over the world to lecture on literature, the cinema, and the fine arts. □

## Before the Season Turns

In the fullness of summer sundry news items inadvertently slipped through the cracks. In early July, for example, four representatives from the Faculty of Pharmaceutical Sciences at Hokkaido University visited our University. Three of the visitors, including the Dean of Pharmaceutical Sciences, Tohru Ueda, gave lectures and the delegation met with all members of the Faculty on an individual basis.

Talks resulted in a rough draft of an agreement between the two Faculties of Pharmaceutical Sciences. It is expected that the agreement, which covers exchanges of faculty and staff and collaborative research projects, will be cemented in the near future, and that it will be an "active" agreement.

### Helpful Hint No. 5

During their visit, the delegation might have noticed a sign in one of the labs which says: "Syringes are living animals, related to the lemming. If you turn your back on them, they will fling themselves off the counter onto the floor."

### The Good Word

President Horowitz received a letter from The Hon. Edward Adeane, Buckingham Palace. The contents are as follows: "The Prince and Princess of Wales have asked me to convey their warmest wishes for all you and Mr. Savaryn did to ensure the success of the special convocation on 30 June. His Royal Highness was delighted to receive the degree of Doctor of Laws *honoris causa* and was greatly touched

by the warmth of the welcome extended to him and The Princess of Wales by The University of Alberta.

The Prince and Princess of Wales have asked me to send their particular thanks for the kind gifts of commemorative medallions which will serve as lasting mementos of a most enjoyable and interesting occasion. Their Royal Highnesses have asked me to extend to the staff and students of The University of Alberta their very best wishes for the future."

### Other Visitors

Patrick Carnegie "played" Athabasca Hall recently. Dr. Carnegie, Professor of Animal Sciences at La Trobe University in Australia, stopped by the Office of Community Relations to discuss his outside studies program (equivalent to our study leave) research and tell something of his institution. The outside studies program is available to academics for six months (after three years' service) or for a year (after six years' service). Dr. Carnegie came to Edmonton largely to do further research with T.A. McPherson of the Cross Cancer Institute. Dr. McPherson was a graduate student of Dr. Carnegie's at the University of Melbourne in the 1960s and the two later corresponded concerning their research on multiple sclerosis and cancer. Dr. McPherson discovered myelin, a basic protein present in large form in a number of MS patients; Dr. Carnegie discovered another variant of myelin.

Edmonton has the potential to become one of the best MS centres in the world, depending on the amount of support it gets, he told *Folio*. Dr. Carnegie, who conducted research at the Cross Cancer Institute and the Department of Biochemistry, said he knew beforehand that he would not encounter any problems concerning the availability of facilities. He found the work atmosphere relaxing and was impressed with the way lab personnel took pains to see that his main research would be completed before his return to La Trobe in July.

He lauded the Alberta Heritage Foundation for Medical Research, particularly its efforts in bringing leading researchers to the campus to speak and give seminars.

The visitor was a bit miffed to find that there was no comprehensive annual research report available and that the ordering of supplies could not be done by an individual scientist.

Dr. Carnegie attended the Medic Canada '83 conference, the Alberta Meat Research Group's meeting and the University of Alberta's Feeders' Day.

La Trobe University was founded in 1964, and admitted its first undergraduate students (500) in 1967.

Another visitor was W. Elmer Adkins, Class of '37 (BSc Chemical Engineering). Mr. Adkins played a major role in the construction of Bitumount, a plant which precipitated the oil sands developments of today. As chemist and superintendent, International Bitumen Co., at Bitu-

mount (near Fort McMurray) he oversaw the shipping of the first commercial products (roofing asphalt) from Bitumount to Gary, Indiana.

He later helped build refinery facilities at a number of western Canadian centres, including Turner Valley, Alberta. Mr. Adkins was appointed superintendent of the Alberta Government Oil Sands Project in 1946. He constructed and operated a demonstration plant at Bitumount.

In his student days Mr. Adkins stayed in 241 Athabasca Hall. During a tour of the Department of Chemical Engineering with its Chairman, Fred Otto, he noted "vast changes." The lab of his day, he said, contained "a couple of test tubes and a bottle of sulphuric acid."

Last fall Mr. Adkins donated his albums containing extensive documentation of the Bitumount project and the work at other refineries to University Archives.

### Letter to Mrs. Shalibashwili

In a letter to the mother of Soviet diver Serge Shalibashwili, Eva Cherniavsky, Administrative Officer (Academic Administration), wrote that, through his untimely and tragic death at the World University Games, Mr. Shalibashwili achieved more than countless politicians and diplomats had ever done before him: he united the peoples of two continents in compassion and love. "Be proud of your young son; he has become a symbol of courage, perseverance, and athletic accomplishment and, above

all, a convenor of peace and friendship among our two countries," Mrs. Cherniavsky wrote.

Her letter was published in the August 1983 issue of *Soviet News and Views*, a publication of the Press Office of the USSR Embassy in Ottawa.

#### *Campus Security Services*

The Office of Campus Security and Parking Services has been preparing for the Winter Session. Staff and students are reminded that the office provides a number

of services, including a lost and found service through which personnel endeavor to trace lost articles and return them to their owners. Similarly, found articles, when turned in to Campus Security, are held for four months in the hope that they will be claimed.

Campus Security provides stickers for identification for eyeglasses, books, calculators, etc. and also a free identification engraving service for skis, bicycles, etc.

## Former Dean Herb McLachlin Retires

After a career spanning thirty-five years, H.J. (Herb) McLachlin is retiring from the Faculty of Physical Education and Recreation at this University. Dr. McLachlin, who capped his career with a five-year term (1976 to 1981) as only the second dean in the history of the Faculty, spent his entire working life at Alberta.

One of the few Edmontonians of his generation to be born here, he served four years as a pilot in the RCAF during the Second World War following graduation from Westglenn High School in 1941. After discharge it was off to McGill for a BSc in physical education under the legendary A.S. Lamb. Life at Alberta began when his only predecessor as Dean, Maury Van Vliet, appointed him lecturer in 1948, immediately after graduation. Teaching and coaching were combined with graduate studies and he qualified for a MSc from Washington in 1952 and a PhD from Oregon in 1969.

There were many organizational responsibilities and committee assignments including more than twenty years as Chairman of the Student Health Services Committee.

Always popular with his students, he taught many different courses but centred his academic attention on anatomy, physiology, kinesiology, and administration. Keenly interested in track and field, he enjoyed a suc-

cessful ten-year career as coach of the Bears, cross-country running team and served on committees that selected the Canadian teams to the Olympic Games of 1956 and 1960, and the Pan-American Games in 1957. He was also very much involved in gymnastics, badminton, golf, and volleyball.

players came to know him as a first-rate referee working in high school, university and elite senior amateur leagues.

Off the court he served as President of the Edmonton Branch of the Canadian Association for Health, Physical Education and Recreation (CAHPER), and later on the national executive, including a term in 1979-80 as National President of CAHPER. He was also President of the Alberta Basketball Officials Association, and Vice-President of the national body. For thirty years he has been the official statistician for the CFL for Eskimos' home games.

As a member of the Board of Governors of Universiade '83, he helped guide the planning of that highly successful festival of sport and culture.

Friends, colleagues, and ex-students will gather to honor him at Lister Hall on Saturday, 22 October. For tickets or information, write to the HJM Retirement Committee, Faculty of Physical Education and Recreation, or call Lorraine or Murray Smith at 432-3341.□

Other services are described on free bookmarks available at Campus Security and Parking Services, 432-5252.

#### *Call for Books Continues*

In response to an appeal by the University of El Salvador for assistance in rebuilding its libraries (destroyed during the 1980 invasion by the Salvadorean military), universities in Canada have established the "University of El Salvador Book Campaign." Coordinated by representatives from several academic and development organizations, the campaign is intended to collect books and periodicals in the following subject areas: medicine, agricultural sciences, general sciences and maths, engineering and architecture, dentistry, chemistry and pharmacy, and economics.

University of Alberta coordinator for the campaign has been David Johnson, Professor of History. Since Dr. Johnson is currently on study leave, his colleague, Olive Dickason, has agreed to act as the University contact. According to Professor Dickason, books are gradually collecting, but more are certainly welcome.

Anyone interested in donating books to the University of El Salvador Book Campaign is asked to contact Professor Dickason, Department of History, 432-3327. More information on the campaign may be obtained by contacting either Professor Dickason or Bob Whitney, one of the Edmonton area coordinators, telephone 427-7767 or 433-5685.□

## people

"Children, Television and the Cultural Lie."

*Richard Bosley* (Philosophy) addressed a Congress in Toronto of the International Society for Chinese Philosophy. He dealt with the doctrine of the Mean in Chinese and Western thought.

*Robert E. Brundin* (Library Science) presented an invited paper "Education for Instructional Librarians" at the 4th Western Canadian Conference on Library Instruction held in Winnipeg 15 and 16 June. Dr. Brundin was also a panelist on the topic "Strategies for Administrator/Faculty Involvement in Library Instruction Programs."

At the recent meeting of the Western Registrar's Association in Vancouver, *Doug Burns* (Protocol Commissioner) was accorded honorary membership in the Western Association of Registrars of Universities and Colleges of Canada. Mr. Burns, Assistant Registrar and Admissions Officer at our University from 1960 to 1983, was recognized for "the active promotion of professional activities for registrars and contributions to the Association."

\*Effective 1 July 1982

At the invitation of the Institute for Systems Studies, **Tony Marsland** (Computing Science) recently visited the Soviet Union where he gave talks on "Multiprocessor Solutions to Tree Searching" both in Moscow and at the Estonian Academy of Science, Tallinn.

Chairman of the Board of Governors **John Schlosser** and **Myer Horowitz** (President) represented the University at the 13th Congress of Commonwealth Universities held at the University of Birmingham 14 to 20 August. During the Congress President Horowitz was chairman of a panel on University-Industrial Partnerships.

Prior to the Congress the President attended the Conference for Executive Heads of Commonwealth Universities which was also held at the University of Birmingham.

## Service information

All information to be included in this column must reach the Office of Community Relations by 9 a.m. the Thursday prior to publication.

### Coming Events

#### Lectures and Seminars

##### Faculty of Library Science

15 September, 2 p.m. Richard Boss, founder and senior consultant of Information Systems Consultants, Inc., Bethesda, Maryland will present a lecture entitled "Managing the Modern Library with Technology." Humanities Centre, Lecture Room 3.

##### Faculty of Medicine

16 September, 8 a.m. A. Douglas, University of Southern California, will present a lecture entitled "Management of Peptic Ulcer Disease." Sponsored by the Alberta Heritage Foundation for Medical Research and Medical Grand Rounds. 2-115 Clinical Sciences Building.

##### Department of Classics

16 September, noon John Boardman, Lincoln Professor of Archaeology and Art at the University of Oxford, will speak on "The Nude, Heroic and Otherwise." Tory

Basement #5.  
16 September, 3:30 p.m. Professor Boardman will lecture on "Greek Myth in Art." 1-8 Humanities Centre.

##### Department of Geography

16 September, 3 p.m. R.M. Prothero, University of Liverpool, will lead a colloquium by giving a paper entitled "How Do We Move?" 3-36 Tory Building.

##### Department of Economics

16 September, 3 p.m. Terry Heaps, Simon Fraser University, will lecture on "The Sensitivity of Stumpage Value to Choice of Rotation Periods." 8-22 Tory Building.

##### Faculty of Arts

22 September, 4 p.m. U. Margolin, Department of Comparative Literature, will lecture on "Narrative and Indexicality." 5-20 Humanities Centre.

##### Department of Health Services Administration and

Community Medicine and Alberta Workers' Health, Safety and Compensation

22 September, 7:30 p.m. Ernest Mastrozetto, Director, Occupational Health, INCO and Professor, Occupational Health, University of Toronto, will speak on "Occupational Diseases—Case Studies" 2-117 Clinical Sciences Building.

##### Exhibitions

##### Ring House Gallery

Until 18 September "Toward Landscape" by Norman Yates. A major retrospective exhibition on the artist's life and work. Sponsored by the Alberta Art Foundation as a tenth Anniversary Project. Gallery hours: Weekdays: 11 a.m. to 4 p.m.; Thursday: 11 a.m. to 9 p.m.; Sunday: 2 to 5 p.m. For further information, telephone 432-5834.

##### Film

##### Departments of Radio and Television and Zoology

15 September, 7:30 p.m. The film "Ghost Moose" will be broadcast on CBC television. "Ghost Moose" is a twelve minute film that deals with research precipitated by the 1977 die-off of moose in Alberta. It takes the viewer into the world of wildlife parasitology and into the life cycle of "Dermacentor albipictus", a unique one-host tick that spends its life on moose. "Ghost Moose", produced by the above noted departments, won the "Best Wildlife" category award at the Alberta Motion Picture Industry Association's 1983 competition.

##### Matters of Faith

##### Catholic Campus Ministry

18 September, 11 a.m. Academic Mass of the Holy Spirit. Faculty, staff and students are invited. St. Joseph's College Chapel.  
27 September to 8 November, 7 to 9 p.m. Romans 8 (study of 8th chapter of letter of

St. Paul to the Romans). For further information contact chaplains rooms 141, 144 and 146 Faculty Lounge, St. Joseph's College.

The following is a Mass schedule for weekdays and Sundays at the chapel in St. Joseph's College.

Sunday Mass Times. Saturday, 4:30 p.m., Sunday, 9:30 and 11 a.m. and 4 and 8 p.m. Weekday Masses: Monday, Wednesday, Friday and Saturday at 12:10 and 4:30 p.m. and Tuesday and Thursday at 12:30 and 4:30 p.m. Also Monday to Friday at 7:30 a.m.

##### World Council of Churches Forum

Edmonton area participants in the recent Sixth Assembly of the World Council of Churches will report on their perspectives and insights into issues arising from that global event. The Forum will be held in Room 158-A of the Students' Union Building at 1 p.m. on Wednesday, 21 September. For information, please contact Rev. Stephen Larson in the Chaplains' Office, 432-4513.

### Non-Credit Courses

##### Computing Services

##### Client Training Sessions

Computing Services is taking registrations between 8:30 a.m. and noon for the following non-credit courses. Please phone 432-2261 first to confirm the dates. Payment is required in advance and clients who do not cancel two business days in advance will be charged. Contact Carey, Training Assistant, 323 General Services Building, telephone 432-2261, for more information.

##### MTS and Editor Fundamentals

Course number: 1079 Date: 19, 21, 23 September. Time: 11 a.m. to 1 p.m. Fee: \$20. Prerequisites: No previous computing experience, but familiarity with a keyboard is required. Place: 351 GSB

##### AJ510 Operation and Visual Editing

Course number: 15. Date: 19, 20 September. Time: 7 to 9 p.m. Fee: \$15. Prerequisites: "MTS and Editor Fundamentals" and a good working knowledge of the File Editor. Place: 357 GSB.

Course number: 1094. Date: 20, 22 September. Time: 11 a.m. to 1 p.m. Fee: \$15. Prerequisites: "MTS and Editor Fundamentals" and a good working knowledge of the File Editor. Place: 357 GSB.

##### MTS Overview

#### **Notices**

##### **Campus Reviews**

As part of the process of carrying out systematic reviews under the guidance of the President's Advisory Committee on Campus Reviews (PACCR), the *Department of Surgery* is completing the self-study phase of the review process. The other major phase of the process is the site visit and assessment by the Unit Review Committee. In preparation for this second phase, PACCR invites written comment prior to 15 November 1983. Submissions are for the use of the Unit Review Committee and will be held in confidence by the members of that committee.

Submissions should be sent to: Mrs. L. Pearson, PACCR Office, W4-13 Chemistry Building, Attention: The Surgery Unit Review Committee.

##### **University Professorships**

The Selection Committee for University Professors will be considering nominees for University Professorships in the Fall. This title honors professors whose academic, professional and community contributions have been exceptionally meritorious.

Nominations should be submitted to Dr D.M. Ross, Department of Zoology (CW312 Biological Sciences Centre), no later than 15 October 1983. Before making any nominations, people are asked to study the criteria, copies of which can be obtained from Mrs. P.M. Plaskitt, 2-5 University Hall, 432-4715

##### **Pre-Retirement Seminar**

Personnel Services and Staff Relations will be holding a Pre-Retirement Seminar for Non-Academic staff who are fifty-five years of age or over. The seminar is scheduled for Friday, 23 September, from 2:30 to 9 p.m. and from 9 a.m. to 4 p.m. on Saturday, 24 September.

Guest speakers will discuss such topics as pension benefits, legal matters, financial planning and health matters. The \$20 per person registration fee includes dinner, lunch and reference materials. To register, if you haven't received your personalized invitation, please contact Brenda MacKenzie at 432-5203.

##### **Sale of Dried Flowers**

The University of Alberta Botanic Garden Club's annual sale of dried flowers, grasses, arrangements, herbs, potpourri and supplies will be held 22 to 24 September at Southgate Shopping Centre (near the fountain). Club members will demonstrate the art of drying and arranging. Sale hours are 9:30 a.m. to 9 p.m. on 22 and 23 September and 9:30 a.m. to 5:30 p.m. on 24 September.

#### **Faculty Badminton Club**

Badminton will be played every Wednesday evening, 8:30 to 11 p.m., in the Education Gymnasium, on 87 Avenue beginning 14 September. Faculty, Research Associates, Postdoctorals and spouses are welcome; beginners and professionals included. Annual fee \$9 per person, includes cost of birds.

If you would like more information, phone Gordon Freeman, 432-3468 or Reg Trollope, 432-3398.

#### **Non-Academic Positions**

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 As-siniboa Hall, telephone 432-5201. As positions are filled on an on-going basis, these vacancies cannot be guaranteed beyond 8 September 1983. Salaries are currently under review. For a more up-to-date listing, please consult the weekly Employment Opportunities Bulletin and/or the postings in PSSR.
